DEATHS
JOSEPH PEED.

Mr. Joseph Peed, whose death Sunday at his home at Mayslick was noted yesterday, was born in January, 1848.

He was twice married—his first wife being a daughter of Jesse Jefferson, by whom he leaves one daughter, Mrs. George Bascom of Sharpsburg; his second wife was a daughter of Dr. H. L. Parry of Mayslick, who survives with four children, Misses Nannie, Jessie and Mary, the latter at present attending school at Holland, Va., and A. M. Peed.

He leaves also two brothers—J. J. of Millersburg and William Peed of Indianapolis—and one sister—Mrs. M. A. Slack of Frankfort.

Mr. Peed was formerly engaged in business in this city, and was one of the best known citizens of Mason county.

The funeral will take place at 2 o'clock this afternoon, with short services at his home at Mayslick, the interment following in Mayslick Cemetery.

BENJAMIN D. PARRY.

Benjamin D. Parry, one of this city's venerable and highly esteemed citizens died last night at 8:15 o'clock from injuries received during the day by falling down an open cellar way at the home of Mr. E. P. Browning in West End Terrace.

He has been making his home for several years with his son and daughter-in-law, Mr. and Mrs. Charles Parry in West Front street.

During the flood, when Front street residents were threatened with invasion from high water, he accepted an invitation to sojourn with Mr. Browning during the flood tide.

Yesterday morning during the absence of Miss Lida Browning, it is conjectured, while passing from one room to another he mistook the cellar-way for that of the dining-room door and stepped to his death.

Being missed and a search instituted he was found at the bottom of the steps, bleeding from a wound in the head and in an unconscious condition, from which he never rallied, although Drs. Adams and Smoot were summoned to his aid and did all in their power for his relief.

He was born in Washington April 7th, 1820, and had he lived until the 7th of April would have been 87 years old.

He was Circuit Clerk of Mason county for two terms, and occupied other positions of importance and responsibility.

He was twice married—his first wife being Miss Ann Groves of Mayslick, by whom he had two children—Groves Parry of St. Joseph and Mrs. Priest of Missouri. His second wife was Miss Mary Humphreys of Washington and his children by her are Moses, William, Charles and Glenn Parry.

The arrangements for the funeral have not been made.

Thomas A. Keith being granted the floor addressed Council in behalf of a State Building at the Jamestown Exposition. He stated that the amount apportioned Maysville and Mason county by the State Executive Committee was \$543.33. He asked that Council donate half the amount, stating that at the next meeting of the Fiscal Court he would appear before that body and ask that an equal amount be appropriated by the county, which he felt reasonably sure would be granted.

While the members manifested a disposition to comply with the request, the Mayor informed Council that not until next year's levy had been made could such a proposition be entertained, as there was no money on hand from which the amount could be drawn, and that the matter would be held in abeyance until such time and then action could be taken and the money appropriated. It was ordered that a note be made in the minutes of same and the subject taken up at the March meeting.

The report of the Committee on Claims and Accounts was read and approved and the Clerk directed to draw warrants on the Treasurer for the various amounts, together with the officers salary.

An account of Rice & Farrow for work done on Forest avenue was laid on the table.

Mary Walker was put on the pension list at the rate of \$5 per month.

Chief of Police Ort was authorized to notify all saloons, where card playing was indulged in, that they must desist, or stand the consequence as promulgated in Ordinance of recent date. This excludes card playing altogether.

The Mayor was authorized to issue six \$500 notes, for current expenses and to pay \$1,240 interest.

A contract submitted by the Paving Committee and read in open Council, employing Civil Engineer John Sanborn of Huntington, W. Va., in the capacity of City Engineer to look after the construction of the contemplated brick streets, was accepted and ratified after considerable time had been wasted in useless talk and the Mayor authorized to sign same in due form. The Engineer's salary is 4½% of total cost of construction.

The arrangements for the funeral have not been made.

Adjourned to February 18th.

Linen Experience

For twenty-two years we've been buying linens for Mason county trade. That's a long experience. It's enabled us to learn linen values thoroughly. There's never any risk in buying linens here. If we say it's linen you may be certain there's no background or intermingling of cotton threads.

Then we plan to meet broadly the tastes of all women. If an extreme pattern appears we put it in stock for the women who admire extreme designs, but we continue to take care of the women who prefer staple and simple patterns.

Never have judicious buying and good taste combined more happily than in our present linen stock—and we are selling on the basis of contracts placed months ago, notwithstanding linen prices have moved forward in seven league boots. Profit by these if your linen supply shows gaps.

HON. JOHN G. CARLISLE, former Secretary of the Treasury, was asked in his home in Gramercy Park, New York, that dispatches from Washington said he was engaged to marry Mrs. JANE LOGAN of Richmond, Va., a sister of HARRY ST. GEORGE TUCKER. Mr. CARLISLE refused to either confirm or deny the report of his engagement. In other words, he declined to speak without the advice of counsel, and the lady is "the counsel" in this particular case.

THE donation of the handsome sum of \$500 to the stricken city of Augusta by the American Tobacco Company through its Maysville Branch is calculated to make the general public change its opinion that corporations have no souls. This gift was entirely voluntary and was so timely that this generous sum of money went at once to the relief of many scores of hungry and homeless men, women and children. He gives twice who gives quickly.

MRS. CARRIE NATION, the Kansas cyclone, is now making her headquarters in Washington City. A few days ago Mrs. NATION presented herself at the White House and demanded to see the President. A policeman informed her that she could not be admitted. NARROW ESCAPE

From Death Made By William Proctor at Pulley Works

Mr. William Proctor, an employee of the Ohio Valley Pulley Works, met with a painful and serious accident yesterday morning.

While engaged in running a machine his hand was caught in the cogs, and in his endeavor to extricate the member he was thrown against the belt of a nearby fly wheel, the contact, fortunately, displaced the belt, otherwise he would have been whirled to his death.

Besides contusions about the head, it required twenty stitches to sew up the lacerated hand.

Saturday Lewis Pelham, who resides above town, was splitting a log and in striking the wedge it flew out and struck him a fearful blow in the head.

He is able to be about.

PYTHIAN HOME

At Lexington Will be Formally
Opened August 1.

The directors of the Pythian Widows' and Orphans' Home met at Lexington and decided to push the work of improvement on their new Home and have the formal opening and reception August 1st.

The building will not be formally dedicated by the Knights, however, until October, 1908, as at that time there will be a meeting of the Lodge from all over the country and the dedication will be accompanied by suitable services.

The matter of a Superintendent was left over for a later date.

The old colonial style of the building has not been changed in any way, but the interior of the building has been entirely remodeled. The building contains room enough to comfortably house fifty people. It will be furnished with its own sewerage system, water lines, heating and lighting and will be complete in every detail. The rooms will be handsomely furnished throughout, as all the subordinate Lodges of the State have pledged a certain amount towards the proper fitting out of the home.

THANKFUL ♡ ♡

To my many friends and the public generally who have in the past extended to me such a liberal share of their patronage, which has helped so materially in making my business career in Maysville such a success: I want to assure all that I fully appreciate what they have done for me and promise that I shall, by renewed efforts, endeavor to retain the confidence of the public by pursuing the same course of fair dealing and polite attention in the future as in the past and selling the very best goods at the most reasonable prices.

I am still selling the same goods as ever, most varied. It has ever been my pleasure to offer to the public, consisting of every article in the Staple and Fancy Grocery line. These goods are fresh and new and of the very best quality. My last shipment of New Crop Open Kettle Molasses is now in and they are strictly fancy, and in spite of the fact that prices on these goods have materially advanced I am still selling them at the very low price of 80c per gallon. My stock of CANNED GOODS is unusually large and the quality of the very best.

FLOUR—FLOUR is rapidly growing because it is beyond a doubt the best flour sold in Maysville or that can be made. It has no superior anywhere.

The run on fine Blended Coffees has been enormous and is constantly increasing. I am still selling these fine goods at 15c, 20c and 25c per pound, and if you want a strictly fancy high grade Mocha and Java, the finest that can be produced, don't fail to call for the famous "Harrington Hall," steel cut cold coffee. It is the all time best and is sold at a price of 25c per pound. A fresh supply of Fair-cafe (steel cut) just in. If you want something extra try out of the famous "Blue Mountain" coffee and it will sell off.

A big invoice of fine Premium Chinaware is now in, a sample of which may be seen in my warehouse windows. These goods I give to my CASH customers in redeeming tickets given with each cash purchase on account. Until further notice DOUBLE TICKETS will be given with each cash purchase on account, giving advantage of this proposition the purchaser will very soon accumulate enough tickets to secure a fine piece of chinaware.

I buy strictly fancy Table Linen, Fresh Eggs and Country Produce generally, for which I pay cash or trade at lowest cash prices. I want every one to come and see me; always welcome. If you don't want to buy it will be a pleasure for me to show you the neatest, the cleanest and the best kept store in Northeastern Kentucky. Thanking all again, I am most sincerely,

A CENTER OF ATTRACTION

The Maysville Public Library a Most Popular Institution

One of the most popular institutions ever known to this town and county is the Public Library.

It seems to give pleasure to all classes, and during the most inclement days of the winter season the large reading hall has been crowded with visitors—men, women and children—numbering from sixty to a hundred every day—all eager to share the advantages of this benevolent work.

If, as Carlyle says, "the best university is a collection of books," then we have in this library an educator of the highest class.

We found there the other day one of our brightest and most capable young business men who is connected with a great mechanical establishment, studying the principles upon which the business rests in a series of valuable publications recently added to the collection.

The place is a favorite resort of the school children, and there are no visitors whose faces are more frequently seen than the young women engaged in the various pursuits of industrial or commercial life.

Much of the success of this institution is due to the popular and accomplished Librarians who have it in charge. Their courtesy is charming.

Oldrieve, the water-walker, has made fine time and is almost sure of winning his bet.

In some sections the flood just passed was considered the worst ever, due, perhaps, to the fact that the Ohio Valley is more thickly populated now than before.

During October, November and December 200,000 bushels of coal was shipped to Southern ports by the Monongahela River Consolidated Coal and Coke Company the largest output in years.

The River Editor of The Courier-Journal sizes up the situation thusly—

Da ole Ohio's either high
Or full ob dus' an' nearly dry;
An' w'en it gits ter actin' nice,
It goes an' gits chockfull of ico.

The Best Meat-Smoking Process

The new process of coating meat with a purified essence of smoke is far superior to the old, crude way of meat smoking. The new process deposits only what is needed to preserve and flavor, while the old way deposits soot and much else that's undesirable.

Chenoweth's Liquid Meat Smoke

Insures perfect results. The meat looks better, tastes better, is heavier, as juices are not dried out by heat, keeps better and it is better protected against insects.

Chenoweth's Liquid Meat Smoke Costs But 50c Per Quart.

OUR PRIDE IS IN THE WORK HARNESS

Department of our store. By giving special attention to the most minute details we turn out Harness whose longevity rivals that of the Deacon's wonderful one-horse shay, which, as you all know, was so wonderfully constructed that it did not wear out in any one particular place, but, after being used for one hundred years to the minute, went to pieces all at once. Our workmen, being skilled at their work, know, as did the Deacon, that "The mighty plain that the weakles' place must stan' the strainin', 'n the way t' fix it, nuz I maintain, is only jes' to make that place uz strong uz the rest." We can give you the names of some of our customers to whom we sold work harness when we first went into business, and which is still as good as new. Do you not think this is full value received for every cent invested?

In the Federal Court at Louisville last week Judge Evans held that the L. and N. Railroad should continue to carry out its contract with E. L. Motley and wife, made in 1871, by the terms of which a compromise in a damage suit was affected by the plaintiffs accepting life passes on the road. The decision is in fact an overruling of the anti pass legislation, in the clause which affects the issuance of passes to any except railway employees. Motley and wife had sued for \$10,000, in lieu of the passes.
